

## Sapphire Blue

Author: Kerstin Gier

Series: The Red Ruby Trilogy  
Book II

*If you want to read one “jewel” of a book,  
then Sapphire Blue is the book you are looking for.  
Here’s a summary of the book:*

Gwyneth is trying to stay steady on her feet because she has just figured out that she is the Ruby who is part of the Circle of Twelve. The Circle of Twelve is a group of twelve who have to travel in time using the chronograph at least once a day. Without the chronograph, they would have uncontrolled time travel and might be thrown into dangerous places in dangerous time periods.

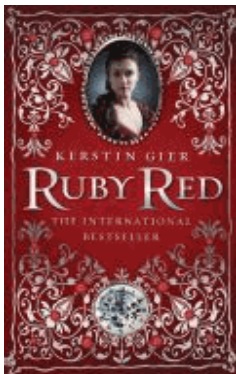

A few people’s blood has to be added to the chronograph in order for the Circle of Twelve to be complete. Getting that blood is Gideon and Charlotte’s responsibility. Unfortunately, two other time travelers, Lucy and Paul, have stolen the chronograph’s other half. They are after Gwyneth and Gideon’s blood to add to the chronograph. Ironically, Gwyneth and Gideon are after Lucy and Paul’s blood to add to their part of the chronograph.

There’s something weird going on with Gideon. One second you would think, “This is the nicest guy ever”, the next, “This guy is so mean!” Preparing for an eighteenth century soiree, an evening party, Gwyneth is under a lot of pressure from her family members, other Circle of Twelve members. But to help her in between this whole mess are her friends, Lesley, her classmate, and Xemerius, a gargoyle demon.

My favorite part of the book was when Gwyneth attended the soiree and amused everyone with her, well, not so wonderful musical talent. This was one of the many parts of the book when you just have to laugh out loud. So do Lucy and Paul get Gwyneth’s blood, or do Gwyneth and Gideon get theirs? Read Sapphire Blue to find out!
