ALICE Training Program

Alert: when you first become aware of a threat. The sooner you understand that you're in danger, the sooner you can save yourself. A speedy response is critical. Seconds count.

Lockdown: If evacuation is not a safe option, barricade entry points into your room in an effort to create a semi-secure starting point.

Inform: The purpose of INFORM is to continue to communicate information in as real time as possible, if it is safe to do so.

Counter: Create Noise, Movement, Distance and Distraction with the intent of reducing the shooter's ability to shoot accurately. Counter is NOT fighting.

Evacuate: When safe to do so, remove yourself from the danger zone.
