

Superintendent Annual Performance Review 2019-2020

In accordance with the Pennsylvania School Code, superintendents must be evaluated annually using objective performance standards. In September 2019, the mutually agreed upon objective performance standards for the 2019-2020 school year were adopted.

On June 15, 2020 the Spring-Ford School Board concluded the annual performance evaluation of Dr. David R. Goodin, superintendent. It is the opinion of the Board that Dr. Goodin satisfactorily met all performance standards in the areas of Student Growth and Achievement, Organizational Leadership, District Operations, Communication and Community Relations and Human Resource Management.
