E. Presentation of Resolution #2009-13 honoring James Brittain and Julia Hodge for successfully auditioning and participating in the Pennsylvania Music Educators Association All-State Symphonic Concert Band.

Dr. Hurda said tonight we are also honoring a group of people who have made a tremendous difference in our school district. Dr. Hurda stated that prom night is supposed to be one of the happiest days in a student’s life but for too many it turns out to be a tragic tragedy. Dr. Hurda said a group of parents decided to do something about it and came forward and asked permission to organize a post prom party. This post prom party has run successfully for four year under the able leadership of two co-chairpersons, Cindy Clark and Debbie Landis. Dr. Hurda asked them to come forward so that they can be honored for four years of tremendous effort in keeping our kids safe on prom night. Dr. Hurda said she does not believe that anyone realizes the time and effort goes into making a successful post prom party. Dr. Hurda thanked them both for taking on this responsibility over the past four years.

Mrs. Landis spoke on behalf of SNAP and said that when they came forward four years ago and approached Dr. Hurda and Mr. Nugent with this idea the feedback was very positive. Mrs. Landis said this year there were 780 students who attended the prom and of that group 730 attended the post prom so the percentage of kids attending post prom was unbelievable. The volunteers could not have asked for anything better than that and they hope this tradition continues. Mrs. Landis said the post prom could not have happened without all the support they received from the SNAP chairpersons, the administration, and the community as this was a team effort.
and she thanked everyone who helped with this event. Dr. Hurda asked all the SNAP volunteers who were present in the audience to please stand and be recognized for their efforts.

F. Recognition of Cindy Clark and Debbie Landis, Co-chairs (2005/06 through 2008/09), and all the volunteers of the SNAP Committee for their efforts in creating a safe and successful post prom party for the students at Spring-Ford Area High School.

Gary Bannon, E.I. Associates, thanked the Board and the Administration for the opportunity to come and talk about the High School Project and in particular their design services. Mr. Bannon said he is here tonight to clear up any confusion, misunderstandings, and answer questions from the Board/Administration. Mr. Bannon said on Friday they just issued the “Notice to Proceed” to all the contractors so hopefully, weather permitting, we will move into the construction phase of the project. Mr. Bannon reported that he has had discussions with the Administration about enhancing the architectural services during the construction phase. Mr. Bannon said as we move forward things envisioned in the past may no longer be appropriate. Mr. Bannon reported that, given the tight construction schedule we have, part of the discussion has been on how to move information more quickly than we have in the past. The construction industry has changed over the last six months and the economy has brought new issues to the surface. Mr. Bannon said perhaps another model/process for developing information as we move through the discussion may help benefit the project staying on schedule. Mr. Bannon stated the opportunity to have additional site visits during construction may help to pick up on things that possibly may not have been seen on an every two week schedule. Mr. Bannon stated that they have a contract and they are required to fulfill certain basic services for the district and there have been discussions on how to enhance those in order to make the process even better. Williams thanked Mr. Bannon for coming back to discuss this tonight and the Board would like to send this back to the Property Committee to review the contract and the additional services along with the district solicitor.

G. Gary Bannon, E.I. Associates, to discuss the contract for the High School Addition/Renovation Project.

II. PUBLIC TO BE HEARD ON AGENDA ITEMS ONLY
Clara Gudolonis, Limerick Township, commented that, after reading the contract herself, the architects are required to perform visual site visits during construction as required, not every two weeks but as required. Mrs. Gudolonis said enhancing this and going more often than two weeks is already in the existing contract.

Janet Stokes, Limerick Township, commented that she was confused by Mr. Bannon’s comments. Mrs. Stokes said Mr. Bannon is talking about enhancing the architectural services to the Administration and she questioned why the enhanced services were not included in the original contract so that he does not have to come back and ask for more money to perform a task that should have been included in the original contract. Mrs. Williams responded that we do not know this yet for sure and that is why it is being sent back to the Property Committee for review with legal counsel. Mrs. Stokes said the way Mr. Bannon is talking he is obviously looking for an enhanced contract. Mrs. Williams stated that we just want to make sure that
everything can be done to have the high school renovation open and available to students by August of 2010.

VII. PROPERTY
Mr. Weber asked that Item A be separated. Mr. Masciandaro made a motion to approve Item A and Mrs. Mullin seconded it.

Mr. Masciandaro asked for an update on the Notice to Proceed for the High School Addition and also asked for clarification on why it is taking so long to get to this point. Dr. Hurda responded that the Notices to Proceed were issued on Friday and the delay was due to the desire by the contractors to find lower insurance coverage. Mr. Cooper explained that when they submitted their bonds for insurance they were not all complete and up to the amount we required, the general contractor was complete but the four prime contractors were incomplete. The process took approximately two months to get all the correct documentation needed to proceed. Mr. Masciandaro asked if we would have gone single prime would we have the same problems and Mr. Cooper said no because the general contractor would have all the insurance documentation and this is one of the problems with multiple prime. Mr. Masciandaro asked what recourse we would have with the contractors and Mr. Cooper responded we do not always have a lot or recourse until the contractors run out of their time and then we can get them for delay of the contract. We do not have a contract though
until we get all of the documentation so our only recourse would be to throw out all the bids and start over again which would be a huge delay. Mr. Masciandaro said in light of the economy you would think that the contractors would want to move things along in order to get paid sooner. Mr. Cooper said this is an example of things that happen when the bids come in so low.

Mr. Dehnert asked if there are any performance penalties that we can enforce and if not can we do this in the future. Mr. Cooper said there is a damage clause but you first must have a contract with the contractor in order to enforce this. Mr. Dehnert asked about throwing the contractor off the job and going to the next lowest bidder. Mr. Fitzgerald explained that you would have to go through the open bid process as per the code instead of just assigning the next closest bid; you would have to reopen the process under the act. Mrs. Williams clarified that this was per the School Code and not something that we control. Mr. Dehnert asked when the contract was signed with each of the contractors and Mr. Cooper responded the contractors signed their contracts awhile ago but we could not sign them until we had all the correct paperwork, which we now have, so they will be signed today.

Mr. Pettit asked if we now have the notice to proceed and Mr. Cooper confirmed this went out Friday. Mr. Pettit said he is concerned that we these prime contractors that would have been sub-contractors had we gone single prime. Mr. Pettit said this is a walking example of why we should not be going with a multi-prime. Mr. Cooper said he couldn’t agree with Mr. Pettit more.

The motion passed 6-1 with Mr. Weber voting no.

A. The Board approved the materials for PlanCon Part F, Construction Documents, for the Spring-Ford High School Addition/Alteration Project. These materials have been reviewed and approved by the Division of School Facilities, Bureau of Budget and Fiscal Management, Pennsylvania Department of Education. (Attachment)

Mr. Grispon made a motion to approve Item B and Mrs. Mullin seconded it. The motion passed 7-0.

B. Administration is recommending approval to move forward with a traffic signal controller and mast arm at the west end driveway exit at the High School for the new pedestrian walkway as required by PennDot and the township. We will also be seeking permission to work with the neighbor for a temporary construction easement to complete the handicap ramps. The costs not-to-exceed $30,000.00 with funding coming from the construction fund.

New Property
Mrs. Williams announced that there is an addendum to the agenda, Letter D. Mrs. Mullin made a motion to approve Items C-D and Mr.Pettit seconded it. The motion passed 6-1 with Mr. Weber voting no.

C. The Board approved awarding the Duct Cleaning Bid to GEM Mechanical Services in the amount of $60,600.00, contingent upon the contractor obtaining the required bonds and insurance certificates. Work will be completed during the
summer months. Funding will be paid from the 2009-2010 General Fund – Maintenance Budget.

Addendum:

D. The Board approved entering into a contract with Officenter, Inc., Elverson, PA, to dismantle sixty-eight (68) existing work stations, being donated by a company in Malvern, PA, and reinstall units as needed for the new District Administration Building at a cost of thirteen thousand eight hundred sixty dollars ($13,860.00). An additional fee of up to one thousand four hundred dollars ($1,400.00) will be required by Officenter to relocate additional donated office furniture (chairs, conference tables, lateral files, etc.). Funding will be from the Capital Reserve Account and shall not exceed fifteen thousand two hundred sixty dollars ($15,260.00).

Mr. Masciandaro explained for the public the fact that the reason the Board was whining about not having a single prime versus a multi-prime and that was not due to any action that the school district has taken but because the State of Pennsylvania has made it illegal for us to bid these projects by single prime.

Mr. Pettit said as he understands it there may have been a case that has come down subsequently which allows single prime and does not limit us to multi-prime.

Mr. Fitzgerald clarified that there was a case about a year ago and PDE was “freaked out” by this and there was major lobbying by the various labor groups to keep this as a complex system of multi bids and they more or less asked for an indefinite moratorium on the process and further guidance from PDE has not been provided since.

Mr. Masciandaro stated that the point he was making is that the problem lies in Harrisburg and if the public wants to help the district out then a call to their state senator may help.

VIII. PROGRAMMING AND CURRICULUM
Mrs. Mullin made a motion to approve Items A-B and Mr. Pettit seconded it. The motion passed 7-0.

B. The Board approved the 2009-2010 student exchange program with the Coláiste Chiaráin High School in Limerick, Ireland. This exchange would provide a 2-3 week opportunity between students at Spring-Ford High School and students at Coláiste Chiaráin High School. The Irish students will be visiting Spring-Ford from November 14 through November 28, 2009. The Spring-Ford High School Students will be visiting Ireland from March 20 through April 3, 2010.
IX. PSBA REPORT

JOHN S. GRISPON

Mr. Grispon reported that the state Department of Education has awarded a contract to Data Recognition Corporation for the development of a series of end-of-course Keystone Exams and related materials, including model curriculum and online diagnostic tests. The contract was awarded for an initial term that will continue until June 30, 2015.

According to the contract, initial work to be completed for the project includes primarily development of the model curriculum and diagnostic tests components. Item development of the Keystone Exams will begin as well. Plans call for the introduction of the mathematics elements of each component at first, with elements of all three components added in science, history, civics & government and literature & English composition, which will be introduced in cycles over the life of the contract that expires in 2015.

This week PSBA presented testimony to the House Appropriations Committee regarding HB 850, the 2009-10 state budget plan recently passed by the Senate. Representing the association was Timothy Allwein, assistant executive director for governmental and member relations.

Allwein said that the association opposes the deep cuts and elimination of funding for basic education programs that are included under the Senate plan. He urged legislators to continue the governor’s proposal to continue his six-year funding plan for schools that uses $418 million in federal stimulus money for the basic subsidy in 2009-10 and another $735 million in 2010-11. In addition, the governor’s plan uses an additional $294 million for State Fiscal Stabilization Grants in the coming fiscal year.

"Unfortunately, there are those who would hijack the stimulus money that is targeted for education and use it for other purposes - a proposition that we believe goes against the intent, if not the letter of the law in the American Recovery and Reinvestment Act. The budget proposed by SB 850 throws Pennsylvania off of its six-year schedule to fund the adequacy gaps found in the costing-out study," Allwein told the committee.

XII. SOLICITOR’S REPORT

No report.

XIII. PUBLIC TO BE HEARD

Joseph Ciresi, Limerick Township, commented that his is confused with Mr. Bannon’s summary given tonight and he asked that before the Board formally goes to a vote on the contract that there is a full presentation to the public one more time so that everyone understands what is happening.

Thomas DiBello, Limerick Township, wondered if there was an upcost to the High School Project due to the delay in starting the construction. Mrs. Williams said she does not believe there is any additional cost at this point as the project has not started yet. Mr. DiBello said there is a defined timeframe in order to finish by August 2010 and he questioned if there would be an upcost due to the delay in the project beginning. Mr. Cooper replied that as of right now the answer is no. Mr. Cooper said if the project was strictly renovation we may have run into a problem as we would have to schedule around the school day and what is taking place in the building but the portion we are really tight on time on is the new addition we should
be able to pick up the time needed if we have a good summer and not a lot of rain. Mr. DiBello asked if there was lag time built into the schedule and Mr. Cooper replied yes for weather and so forth. Mr. DiBello reported his concerns were due to the discussion at the last several meetings over multiple subs that may be lagging for whatever reason and he believes he heard it said that if the project continues to lag there would be significant cost to the district. Mr. Cooper likened the lag time to snow days that you build into a school calendar and right now we are using up our snow days so we are still okay.

Barbara Grubb, Limerick Township, stated that she is concerned and frustrated over an incident that has been happening with her daughter in elementary school. Mrs. Williams stopped Mrs. Grubb saying her issue is one that concerns student confidentiality and Dr. Hurda will be glad to speak with her privately after the meeting regarding the concerns.

Mrs. Williams announced that the Board will meet in an Executive Session following the conclusion of the Board meeting regarding personnel agreements.

**XIV. ADJOURNMENT**

Mrs. Mullin made a motion to adjourn and Mr. Pettit seconded it. The motion passed 7-0. The meeting adjourned at 8:20 p.m.
