

Upper Providence Science in the Schools

Mission:

To provide GSK employees with resources and opportunities to share science in our local community and to inspire future generations of scientists

Our Goals:

Inspire kids to pursue science careers!

Help grow a skilled and diverse science workforce

Have a lot of fun and satisfaction doing it

Organization:

All volunteer group made up of GSK employees

Supported by the UP Site Committee

Corporate Orange Day

GSK R&D and Upper Providence

- The Upper Providence site employs ~1300 full time-employees
- UP is the center for GSK Oncology R&D, and also has research groups in inflammation and infectious disease.
- The UP site has all aspects of drug discovery and development.

Spring Ford Student Shadow Program

The visit :

- Students arrive 7:30
- Overview of drug discovery and GSK
- Students divided into groups of 4-5
- 3 hours of scientific demonstrations and tours conducted by GSK employees with a focus on how the science is used in the drug discovery process
- Discussions with GSK employees about educational background and career paths
- Lunch with discussion
